

CURRICULUM VITAE

Assistant Professor Usaney Pongpan, Ph.D.

Assistant Professor Dr. Usaney Pongpan, Consultant of Drug Dependence Research Center and Assistance Professor, College of Public Health Sciences, Chulalongkorn University completed a Doctoral Degree in Research for Health Development, Chulalongkorn University. She received 2 Master's Degrees in Demography at Chulalongkorn University and in Population Research at University of Exeter in the United Kingdom, where she had training at Addiction Centre.

Having close collaboration with national/international levels, she has given counselling and training in drug/alcohol, training analysis needs and data management. She had a long-time contribution to the Ministry of Public Health in compiling and processing national drug dependent treatment records. Her research areas are on sociocultural context of risk-taking behaviors among women and transgender sex workers, evaluation of drug dependence treatment system and the multi-sector community development projects to reduce opium cultivation and use in hill-tribal communities, indigenous Buddhist temple treatment of drug dependence and methadone treatment. She conducts and oversees research in alcohol, substance abuse, HIV risk, and prevention. Her works are published in many international journals.

Position

- Assistant Professor College of Public Health Sciences, Chulalongkorn University
- Director WHO Collaborating Centre for Research and Training in Drug Dependence
College of Public Health Sciences, Chulalongkorn University.

Address

Drug Dependence Research Center
College of Public Health Sciences,

Chulalongkorn University
5th Floor, Institute Building 2,
Soi Chula 62, Phyathai Road,
Pathumwan District,
Bangkok 10330, Thailand

Tel.: 662-218-8200

Fax: 662-255-2177

e-mail : usaneya.p@chula.ac.th

Education

B.S. in Statistics, Chulalongkorn University, Bangkok

M.A. in Population Research, University of Exeter, United Kingdom

M.A. in Demography, Chulalongkorn University, Bangkok.

Ph.D. in Research for Health Development, Chulalongkorn University,

Training

➤ Certificate of Attendance at the World Health Organization's Training Workshop on Evaluation of Costs and Effects of Treatment for Substance Use Disorder, 22-26 June 1998.

➤ Certificate of Training in Drug Dependence and Alcoholism: A Multidisciplinary International Seminar, London, 14-25 June 1993.

Working Experiences

➤ Compiling and processing the national drug dependent treatment population intake records.

➤ Data management and synthesis about drug/substance abuse surveys and HIV sentinel surveillance.

➤ Training in research methodology especially in research design, sampling technique and sample size etc.

➤ Working as the researcher in the following topics:

-Development and evaluation of substance abuse and alcohol intervention.

-Epidemiological study of pattern of substance abuse and HIV/AIDS risk behaviour among specific population, i.e. students, truck drivers, commercial sex workers, seafarers, etc

Selected research projects

1. Drug use and HIV risk related behaviors among transgender sex workers in Bangkok, funded by Center for AIDS Prevention Studies, University of California, San Francisco: 2007
2. Case-control study of hazardous alcohol consumption and HIV risk behavior among female sex workers in Bangkok, King's College London, UK and Department of Psychopharmacology, University of Adelaide, Australia: 2006-2008
3. Evaluation of drug dependence treatment system in Thailand, funded by ONCB: 2009
4. Substance use and HIV risk behaviors among commercial sex workers in Thailand, funded by NIDA via the Institute of Health, Oakland: 2009-2012
5. Tailored Family and Community Brief Intervention Model (TFCBIM) to reduce alcohol consumption among the risky drinkers in communities in Prachin Buri Province, funded by Integrated Management for Alcohol intervention Program (I-MAP), Thai Health Promotion Foundation: 2013-2015
6. Comparative behaviors between cigarette and e-cigarette smoking by match cases in Bangkok and vicinity areas, funded by Thai Health Promotion Foundation: 2015
7. An Assessment of Harm Reduction Interventions among Injection Drug Users, funded by Thai Health Promotion Foundation: 2015-2016
8. Size estimation of substances user population in Thailand: National Household Survey 2016, funded by Office of Narcotics Control Board: 2016
9. Meta-analysis of Cannabis, funded by The Office of Narcotics Control Board: 2018
10. Demand and Supply of Ketamine in Bangkok and Vicinity Area, funded by Office of Narcotics Control Board: 2018
11. National Household Survey 2019, funded by The Office of Narcotics Control Board: 2019
12. Transferring of Drug Dependent Treatment System from the Ministry of Justice to the Ministry of Public Health funded by Thai Health Promotion Foundation: 2019-2020

13. Medical Marijuana Project: Social and Science Study for the National Policy and Security Strategy, funded by Office of Narcotics Control Board: 2019-2023
14. Analysis of academic studies of Kratom for supporting the change of addictive plant policy, funded by Office of Narcotics Control Board: 2020
15. Performance Evaluation of the PWID HIV/TB and Needle & Syringe Program Component, funded by Global Fund to fight AIDS Tuberculosis and Malaria: 2020-2021
16. A study of marijuana and hemp: CBD extraction and its use in food ingredients and other products, funded by Health Systems Research Institute, MOPH: 2021-2022.
